The Ethics of AI and the Future of Humanity

Arshin Adib-Moghaddam, Professor of Global Thought and Comparative Philosophies at SOAS, University of London, UK

Delving into the narratives enveloping the development of AI systems, with a particular

emphasis on "tech-giants" and the ideas of Mark Zuckerberg, Elon Musk and Bill Gates, this book explains how and why technology aids and abets various forms of extremism, entrenches social hierarchies and discriminatory boundaries and how this will impact international security and human rights in the future.

Back to Black

Black Radicalism for the 21st Century

Kehinde Andrews, Birmingham City University, UK

Back to Black lays out the long, powerful and painful history of Black radical politics. Kehinde Andrews shows how Black radicalism has been diluted and moderated over time; wilfully misrepresented and caricatured by others; divested of its legacy, potency, and force.

Immensely readable and shocking, Andrews traces the true roots of this tradition in this new edition, and connects the dots to today's struggles by showing what a renewed politics of Black radicalism might look like in the 21st century.

The State of Secrecy

Spies and the Media in Britain

Richard Norton-Taylor, Journalist

How do you report on the secret world of spies? Richard Norton-Taylor reveals the secrets of his forty-year career as a journalist covering the world of intelligence, espionage, spies and their masters in Whitehall. With a reputation inside the Whitehall

establishment, and in the outside world alike, for his relentless determination to expose wrongdoing and incompetence, Norton-Taylor takes a provocative look at the UK's security and intelligence agencies and the Ministry of Defence. Provocative, and rich in anecdotes, *The State of Secrecy* is an illuminating account of the author's experiences investigating this secret world.

Oil Shock

The 1973 Crisis and its Economic Legacy

Edited by Elisabetta Bini, Giuliano Garavini, European University Institute & Federico Romero, European University Institute in Florence, Italy

The 1973 'Oil Shock' is considered a turning point in the history of the twentieth century. This book

provides an analysis of the crisis and its global political and economic impact. It features contributions from a range of perspectives and approaches, which examine the origins of what was defined as an 'oil revolution' by the oil-producing countries, as well as the far-reaching effects of the 'shock' on the Cold War and decolonization, on international energy markets and the global economy.

Living with Precariousness

Edited by Christina Lee, Curtin University, Australia & Susan Leong, Edith Cowan University, Australia

Living with Precariousness explores the lived effects and affects of precariousness through critical dialogue surrounding states of vulnerability, instability and uncertainty that manifest in the

current social, economic and political climate worldwide. A range of timely international case studies explore precarious existences – individually, collectively, structurally, as well as through space and the body. These range from the plight of refugees, to the 'tiny house movement' as a response to unaffordable housing; from the exploitative practices of modern slavery, to the daily vulnerabilities of living with a chronic disease.

China Incorporated

The Politics of a World Where China is Number One

Kerry Brown, Lau China Institute, King's College London, UK

Looks beyond tired clichés and inside the Chinese leadership as they lay out a roadmap for working in a world in which China shares dominance with the West. Exploring China's transition to a dominant superpower, Brown digs deeper into the problematic nature of China's current situation - its treatment of dissent, of Xinjiang, Hong Kong, and the severe limitations on its management of relations with other cultures and values which impact the way the West sees China, how China sees the West, and how they both see themselves.

India's Military Strategy

Countering Pakistan's Challenge

S. Kalyanaraman

The book explores the politics of the India-Pakistan conflict in order to place the study of Indian military strategy in the political sphere. It discusses three main issues that have ensured the persistence of conflict: incompatible national identities, Pakistan's congenital quest for parity with and compulsion to challenge India, and irreconcilable positions on the Kashmir issue. It argues that India has invariably pursued limited political aims that did not threaten Pakistan's survival or form of government or regime in power albeit containing a counter-offensive element.

Rabindranath Tagore's Ideational Challenges

Bidyut Chakrabarty

The book focuses on Rabindranath Tagore as a literary genius and as an innovative ideologue. It draws on the politico-ideological significance of the ideas that the poet upheld. It provides insights on re-conceptualising Tagore's unique understanding of nationalism. The book is also an effort to see Tagore's creative texts differently by unearthing the politico-ideological and socio-cultural contexts in which they evolved and by re-assessing some of the acceptable ideas relating to them. It rescues Tagore from merely being a literary figure to one who devised an alternative mode of approaching nationalism by creatively amalgamating the Western and Eastern discourses.

The War Came To Us

Life and Death in Ukraine

Christopher Miller

The inside story of Ukraine's bravery and defiance in the face of Russian aggression, from the conflict's leading journalist. When President Putin ordered Russian troops to invade Ukraine, he unleashed a terror that struck at the very heart of Europe and broke the world order that had been in place since the fall of the Soviet Union. This is a story told through the lives of Ukrainians, their fears and struggles. It is Ukraine in all its glory: vast, defiant, resilient, trying to escape the long shadow of its former imperial ruler while fighting to build a new future.

Challenges for a Small State

Edited by Tracey German, Kornely Kakachia & Stephen F. Jones

Noncitizen Power

Agency and the Politics of Migration

Tendayi Bloom, University of Birmingham, UK

In *Noncitizen Power* Tendayi Bloom applies her novel politics of 'noncitizenism' - those fighting for political recognition either from their state or from the international system as a whole - to real-world policy. Through an analysis of the UN Global Compact for Safe, Orderly and Regular Migration (adopted in December 2018) Bloom interrogates the power of migrants and civil society in determining the outcome of, and engaging with, global migration governance. As such, this book provides an important contribution to contemporary debates about solidarity, participation, legitimacy and justice in the international system.

Progressive Politics in the Democratic Party

Samuel Untermyer and the Jewish Anti-Nazi Boycott Campaign

Richard A. Hawkins, *University of Wolverhampton, UK*

In the era of the appeasement of dictators, Samuel Untermyer stands out as a champion of the human rights of not just German Jewry, but of other persecuted communities in Germany such as trade unionists, Roman Catholics and Freemasons. This is the first full biography of Untermyer, a prominent Wall Street lawyer who founded the principles on which Jewish democratic politics still stands today. The first to oppose Hitler, he organised the anti-Nazi league in the early 1930s, and proposed a unique global socialist/capitalist worldview which still informs American politics today.

Whiteness in Puerto Rico

Translation at a Loss

Guillermo Rebollo Gil, *Ana G. Méndez University, USA*

This examines the social construction of whiteness in Puerto Rico, using the study of American racism to inform analysis of Puerto Rican racism and the two culturally distinct, yet intrinsically linked, spaces.

Taking examples from the work of Puerto Rican activists, writers and artists, Rebollo-Gil documents the ways in which whiteness shapes and informs Puerto Rican cultural producers while simultaneously being challenged by them. Cross-disciplinary in approach, *Whiteness in Puerto Rico* speaks to the present political moment in a country marked by austerity, disaster capitalism and protest.

A Cultural History of Democracy in the Medieval Age

Edited by David Napolitano, University of Cambridge, UK & Kenneth Pennington, The Catholic University of America, USA

This volume explores democracy in the Middle Ages through ten chapters devoted to the notions of sovereignty; liberty and the rule of law; the

A Cultural History of Democracy in the Age of Empire

Edited by Tom Brooking, University of Otago, New Zealand & Todd M. Thompson, Biola University, USA

This volume explores democracy in the nineteenth century through ten chapters devoted to the notions of sovereignty; liberty and the rule of law;

A Cultural History of Democracy in the Modern Age

Edited by Eugenio Biagini, University of Cambridge, Cambridge & Gary Gerstle
